(c) whether there is any proposal under Government's consideration to give relaxation in this regard?

THE DEPUTY MINISTER IN THE MINISTRY OF FINANCE (SHRI L. N. MISHRA): (a) While Study Leave Rules, 1962 provide that study leave shall not "ordinarily" be granted to non-gazetted Government servants, there is no serious bar to its being granted to non-gazetted staff.

(c) whether Government have taken any action on the recommendation for the constitution of a competent body for

purposes of such standardisation as recommended by the Fourth Finance Commission; and • (d) if so, the details thereof?

THE MINISTER OF FINANCE (SHRI SACHINDRA CHAUDHURI):

(a) Government have recently received a representation from one State Government, (b) to (d) The State Government has asked for an additional grant-in-aid of Rs. 15 crores from the Government of India so that it could make adequate provision for amortisation of its public borrowings. This problem is not peculiar to the State that has represented this but is attracted in the case of several other States also. Ordinarily the additional requirements of States, if any, for such purposes would be taken into account while determining the size of the Plan, the State's resources and the Central assistance to the State for the Plan. Nevertheless Government propose to examine the general question arising in this connection in the light of the recommendations of the Fourth Finance Commission regarding the indebtedness of States and the need for standardisation of amortisation of public borrowings. It is not considered necessary however to constitute another body to go into this matter.

THE MINISTER OF HEALTH AND FAMILY PLANNING (DR. SUSHILA NAYAR): (a) Out of 12 sulpha-drugs imported into the country in 1964, there has been some increase in prices of 3 drugs. In the case of the remaining items, the prices in 1965 are lower than in 1964. As regards formulations, and packings containing sulpha drugs, the prices have not generally gone up, except for new formulations which have been marketed after 1st April, 1963 and therefore are not covered by pegging of prices order.
