

(b) Workers' Education is a new and specialised field, and qualified teachers in this line are not readily available. The teaching and administrative staff of the Board is recruited directly after countrywide advertisement, and is trained at the expense of the Board which is financed entirely by the Central Government. Some of these officers are also sent abroad for further training in workers' education. The Board cannot afford to have its existing strength of staff trained at the expense of the public exchequer depleted by allowing them to apply for posts elsewhere without jeopardising its interests and its commitments under the Third Five Year Plan.

(c) The position will be reviewed in September, 1965.
