†[THE DEPUTY MINISTER IN THE MINISTRY OF COMMERCE (SHRI S. V. RAMASWAMY): A statement is attached.

STATEMENT

The Tariff Commission, as was to be expected in dealing with such a vast industry having numerous varieties of cloth and yarn and with qualities varying from producer to producer, had only attempted broad formula for arriving at prices leaving Governmental agencies (Textile Commissioner and others) to work out the details of prices. The formula prescribed by the Commission for price fixation was found to be somewhat too complicated for ready application. Thus the report could not make any precise and concrete recommendations. The recommendations of the Commission for fixation of prices were, therefore, referred to a Technical Committee appointed by Government for further examination. Subsequently a Panel of well-known textile technologists also studied the report of the Commission. In the meantime Government have been having under consideration the question of statutory controlling cotton textile prices after a suggestion to this effect was made at the meeting of the Cotton Textiles Consultative Board at its meeting held in Bombay on the 7th July, 1964.

†[] English translation.

In this connection the recommendations of the Tariff Commission and those of the Technical Committee and Panel of textile technologists have all been taken into account and a decision in the matter is likely to be taken by Government at an early date.]
