

SHEI N. KANUNGO: The amounts are not necessary, because it is a question of ratio. The investment and the outright payment, these differ from case to case. It is not a case of licensing. It is a question of approving foreign collaboration.

SHRI NIREN GHOSH: Which are the industries for which these licences for foreign collaboration have been granted?

(No reply.)

SHRI G. MURAHARI: How many applications came within the restrictions that the hon. Minister just now spoke of and still were rejected, and why were they rejected?

SHRI N. KANUNGO: As I have said, the acceptance is governed by strict rules, in the sense that it should involve rare technology or "know-how" that is not available in the country. Only then it is accepted. In ordinary cases it is not accepted.

SHRI G. MURAHARI: How many of them did not come under this category and were rejected?

(No reply.)

SHRI NIREN GHOSH: Sir, a part of my question has not been answered. I asked which were the industries to which licences were granted.

SHRI N. KANUNGO: For that I require notice, Sir.
