(a) the actual allotment of Kerosene for Uttar Pradesh during the last three years ending 31st December, 2005 with the criterion therefor;

(b) whether the State has requested the Centre to increase the quantity of Kerosene for the State and the reasons given for the same; and

(c) the action taken by the Centre thereon?

THE MINISTER OF STATE IN THE MINISTRY OF PETROLEUM AND NATURAL GAS (SHRI DINSHAJ. PATEL): (a) The quantity of PDS SKO allocated to the State of Uttar Pradesh during the last three years has been as under:—

Year		Quantity (In Metric Tonne)
2003-04	—	12,32,633
2004-05	—	12,11,485
2005-06	—	12,41,772

As per the policy adopted by the Government of India, the Kerosene (SKO) allocation for distribution under the Public Distribution System (PDS) to various States/Union Territories, including Uttar Pradesh, was reduced every year beginning 2001-02 and upto 2004-05, taking into account the number of LPG connections released in each of the States/ Union Territories.

In view of the requests received from various State Governments for increasing the allocation, the Government of India have commissioned the first-ever detailed study of Kerosene demand in the country, through the National Council of Applied Economic Research (NCAER) in December, 2004.

Pending taking a view on the report of NCAER the allocations for 2005-06 have been maintained at the level of 2004-05, including additional allocations made during that year to meet emergency/urgent demands for PDS Kerosene in States/Union Territories. For the 1st quarter of 2006-07, allocations have been maintained at the level of 2005-06.

(b) and (c) While no such request has been received from the State Government of Uttar Pradesh in the recent past, requests for additional allocation for floods/drought in the State were received in this Ministry during 2005-06. Additional allocations of 1320 KL each were made to the State during August 2005 and October 2005 against these requests.
