(c) whether this wheat flour has been frozen as unsuitable for consumption?

THE MINISTER OF HEALTH (DR. SUSHILA NAYAR) : (a) to (c) A statement giving the requisite information is placed on the Table of the Sabha.

STATEMENT

(a) 450 cases of a disease crippling the patients by paralytic action of lower limbs occurred in Malda and Dinajpur Districts of West Bengal from 1st week of April upto 19th June, 1962. 20 cases in whom the main symptoms were burning sensation of the feet and legs together with sense of heaviness and weakness in them were also reported from 3

villages in Nadia District. There was no evidence of frank paralysis in any one of them and excepting one woman (the first case) there has been no death.

In Assam, cases of paralysis occurred in Chhotopukhuri in Darang District in a Catholic Mission affecting 180 inmates after taking foodstuffs prepared from imported wheat flour contaminated with triorthocresyl phosphate.

No such complaints have been received from any other State or other districts of West Bengal and Assam.

(b) Under the Indo-U.S. Agreement of 1951, the consignments are sent by philanthropic non-profiteering agencies in U.S.A. to their counterparts in India for free distribution amongst the poor and needy. The flour is first packed in paper bags and then put in gunny bags.

(c) The bags of flour which were suspected to be contaminated were seized by the Governments of West Bengal and Assam. The other State Governments have been advised to take immediate steps to ensure that the contaminated wheat flour is not issued to the public in any form.
