श्रीमती सीता युद्धविर : इस स्कीम को सैंकशन करने में जो देरी हो रही है उसके कारण हैदराबाद की बढ़ती हुई जनसंख्या को पानी की जो किल्लत हो रही है, उसे तकलीफ और बेचैनी को क्या सरकार अनुभव करती है?

श्री डी० पी० कर्मकर : जी हाँ, देरी तो हो रही है लेकिन कुछ तो दूसरे कारण से हो रही है। हमारा खत उनको गया है २९ अक्टूबर, १९६० को और उसका जवाब आया है जनवरी १९६१ में और अपने जो एसिस्टेंट डाइरेक्टर हैं वे बहा फरवरी में स्टडी करने के लिए गये हुए थे। अब कुछ ज्यादा देरी नहीं होगी।

SHRIMATI YASHODA REDDY: May I know, Sir, the main features of the scheme submitted by the State Government to the Ministry?

SHRI D. P. KARMARKAR: Sir, the main features are as follows:

"The scheme envisages the provision of a barrage across Manjira river, pumping raw water from the lake to Pattamcheruvu village over a distance of 18 miles where it will be put through filters, a filtered supply of 18 m.g.d. will be pumped again over a distance of 7 miles to a service reservoir on a ridge at Lingamapalli village, from where the supply will gravitate over a distance of about 12 to 15 miles to distribution system in the two cities."

I think that is sufficient for the time being.

SHRI D. P. KARMARKAR: So far as consideration is concerned, Sir, it is almost at the ultimate stage. I think, Sir, consideration will be finalised soon. How long it will take to complete it, will depend upon the monetary resources available and our capacity to utilise those resources early.

SHRIMATI YASHODA REDDY: Will it come in the Third Plan at least?

SHRI D. P. KARMARKAR: I am certain about it, Sir.
