

prepared by the Central Water and Power Commission at Poona Station (Khadakvasla) were washed away by the floods in July, 1961;

(b) if so, what is the extent of the damage in this regard; and

(c) what steps are being taken to reconstruct the models?

THE DEPUTY MINISTER OF IRRIGATION AND POWER (SHRI J. S. L. HATHI) : (a) Out of some 400 acres of the Stations area, damage was confined to only about 3 acres which adjoined the Khadakvasla Dam. No important model was damaged except the sectional model of the Bhakra Dam, Demonstration models, one shed and some of the flumes were washed away.

(b) The total damage to the Research Station including demonstration models is estimated at Rs. 1 lakh.

(c) Immediate steps were taken to lay down a new water supply system. The area damaged will be reconstructed soon, as also the demonstration models.

BETTER UTILISATION OF IRRIGATION POTENTIAL

*488. SHRI NIRANJAN SINGH: Will the Minister of IRRIGATION AND POWER be pleased to refer to page 65 of the report of the Ministry of Irrigation and Power for the year 1960-61 and state the number of State Governments which have taken steps to co-ordinate the work of better utilisation of irrigation potential and whether the irrigation facilities have been properly utilised as expected by the Co-ordination Board of Ministers?

THE DEPUTY MINISTER OF IRRIGATION AND POWER (SHRI J. S. L. HATHI) : The percentage of utilisation of irrigation potential created at channel outlets from major and medium irrigation projects is estimated to have increased from 48 per cent, at the end of the First Five

Year Plan period to about 76 per cent, at the end of the Second Plan period. This has been achieved as a result of various steps taken by the States to accelerate the pace of utilisation of irrigation facilities.
