

SHRI A. M. THOMAS: Even this morning I saw samples of the rice. It is excellent rice; in appearance also it is excellent.

SHRI D. A. MIRZA: May I know whether the yearly import of rice from foreign countries is on the decrease or on the increase, and may I know the figures for 1957-58 and 1958-59?

SHRI A. M. THOMAS: The hon. House knows that import of rice is being made under the agreement which we have entered into with Burma, five-year agreement which expires with the imports of this year. We are importing for the last two years at the rate of 3.5 million tons under the agreement, and before that at the rate of round about 5 lakh tons. We have not been able to get the entire quantity. There has been some reduction in the quantity that was shipped. From Viet Nam and some other countries we have been importing only a small quantity.

(b) A representation has been received by the Municipal Corporation of Delhi.

(c) As stated in reply to part (a) necessary action is being taken by the Delhi Municipal Corporation.

STATEMENT

The New Delhi South Extension Colony on Ring Road was sanctioned by the Delhi Development Provisional Authority.

It is not correct that M/s Delhi Land and Finance Ltd. are not developing the colony in respect of roads, bridges/culverts and street lighting. The position is as under:—

(a) All the main roads have been constructed.

(b) The service roads have not yet been constructed. The colonisers wanted that construction of service roads be permitted to be undertaken after some houses have been constructed in the colony, for otherwise the service roads were likely to be damaged. The Municipal Corporation of Delhi have however, asked the colonisers to complete the construction of service roads.

(c) All the bridges/culverts have been provided. Most of them are, however, not of the requisite width. The colonisers have been asked to widen these culverts.

(d) The estimates for providing street lighting have been forwarded to the colonisers by the Delhi Electric Supply Undertaking and the colonisers are making arrangement to deposit the necessary amount with the Delhi Electric Supply Undertaking.

It is not correct that hundreds of houses have been constructed in this colony. About 50 houses have been constructed or are under construction. The Corporation have allowed construction on 40% of the plots in this area pending full completion of services.
