The Chief Technical Examiner's organisation also conducts test checks of the work done and on the final bills of the contractors. In the case of contracts for the purchase of Military equipment and stores, the bulk of the purchases is made through the Ministry of Works, Housing and Supply, who have Central Procurement Agencies in U.K., and U.S.A. Payments are made according to the contractual terms, after the material supplied is duly inspected by authorised Inspectors and the quantities received are certified by the consignees. The general procedure adopted in India is to pay 90 per cent. of the value of supplies made on basis of the inspection reports and proof of despatch, the balance 10 per cent. being paid on receipt of goods by the consignee. In the case of supplies arranged by procurement agencies abroad 100 per cent. payment is usually made on proof of inspection and shipment, duly supported by documents.
