†[English translation.

SHRI A. V. KUNHAMBU: May I know, Sir, whether in calling upon the State Governments to submit their proposals for 1958-59 the Planning Commission have given any indication regarding the so called pruning or rephasing aspect of the Plan?

SHRI S. N. MISHRA: No, Sir, we have indicated to the State Governments certain essential conditions. They number about seven. It would take a lot of time to give them. But broadly speaking, I may state that they have been asked to go slow on schemes which involve foreign exchange; to give priority to schemes which contribute to greater agricultural production and which also lead to the utilisation of the capacities created by irrigation projects. It has also been suggested to them on the basis of the suggestion made in the Standing Committee of the National Development Council that the order of the outlay for 1958-59 should be of the same level as for 1957-58.

SHRI A. V. KUNHAMBU: May I know, Sir, if the Planning Commission for the Government of India suggested to the State Governments the possibility of giving emphasis on any particular aspect like food production or resettlement of landless labourers—in formulating their proposals?

SHRI S. N. MISHRA: No such indication for the landless has been given, particularly in this context, but probably the hon. Member has in his mind the suggestion made in the Standing Committee of the National Development Council. In this particular context, however we have not laid any specific condition.

SHRI A. V. KUNHAMBU: May I know, Sir, whether the State Governments have given any indication regarding foreign exchange availability in the State sector of the Plan?

SHRI S. N. MISHRA: All those things will be considered during the course of the discussion that we are

going to have with the State Governments.
