TESTING OF WATER IN DELHI

*231. SHRI JAI NARAIN VYAS: Will the Minister for HEALTH be pleased to state:

(a) whether Government have been regularly conducting physical, chemical and bacteriological tests of water drawn from wells for human consumption and water used for manufacturing ice and aerated water in the different factories of Delhi; and

(b) if so, whether Government are satisfied that there is no pollution in the water used for the above purposes?

THE MINISTER FOR HEALTH (SHRI D. P. KARMARKAR): (a) and (b). Samples are taken by the Municipalities and also by the Director of Health Services, Delhi and sent for physical, chemical and bacteriological analysis. In case of contamination, steps are always taken to dis-infect the source of water supply. Water drawn from shallow wells is not always safe and the public is, therefore, regularly advised to use it after boiling.
