#### STATEMENT

The Government of India established a Pilot Deep Sea Fishing Station at Bombay in 1946 with the object of charting of fishing grounds, determining fishing seasons and fish intensities, assessing suitability of different kinds of fishing crafts and gear under Indian conditions, carrying on experiments on methods of preservation of fish and training of Indian personnel in fishing methods etc. Exploratory fishing was conducted from 1948 onwards with trawlers for bottom fisheries and with Reekie Boats for mid-water and surface fisheries. So far, more than 17,000 sq. miles of fishing grounds within 40-fathom line off the West Coast of Bombay and

Saurashtra have been surveyed and charted. In 1953, two trawlers of the station were converted for bull trawling and results of this type of fishing during the last two seasons have been satisfactory.

2. Survey of fishing grounds at the head of Bay of Bengal were conducted by the Government of West Bengal with two Danish Trawlers from 1950 onwards. Recently, three Bull trawlers have been procured under Indo-American Aid Programme for intensifying exploratory fishing activities at the head of the Bay of Bengal.

3. The Government of India have procured power fishing vessels for undertaking experimental and exploratory fishing with new types of gear such as Purse-Seines, Shrimp Trawls, improved types of Gill nets and troll lines etc.]
