#### **EXPLORATION OF IRON ORE IN ANDHRA**

\*7. SHRI J. V. K. VALLABHARAO:

Will the Minister for NATURAL RESOURCES AND SCIENTIFIC RESEARCH be pleased to state:

(a) whether any request has recently been received from the Andhra Government to send geologists for the exploration of iron ore at Jaggayyapet, Krishna District, Andhra; and

(b) if so, what action has been taken in the matter?

THE MINISTER FOR NATURAL RESOURCES (SHRI K. D. MALAVTYA): (a) and (b). A statement giving the required information is placed on the Table of the House.

#### **STATEMENT**

No specific request was received from the Government of Andhra for the detailed examination of the iron ore deposits near Jaggayyapei Krishna District, Andhra.

At the instance of the Government of Andhra, Professor C. Mahadevan, Head of the Department of Geology, Andhra University, along with the teachers and students of the Geology Department, conducted a survey of the Jaggayyapet area in 1954. Professor Mahadevan estimated the reserves of the iron ore in the area to be of the order of 2-5 million tons after excluding the ore transported from private lands. The Government of Andhra requested for the confirmation by the Geological Survey of India of the figure of reserves as estimated by Professor Mahadevan.

The reserves as estimated by Professor Mahadevan have been considered acceptable to the Geological Survey of India. The estimated figure includes a certain amount of debris, from which it may not be economic to recover the ore commercially.
