#### Deployment of ambulance and crane on highways

3964. SHRI Y.S. CHOWDARY: Will the Minister of ROAD TRANSPORT AND HIGHWAYS be pleased to state:

(a) whether there are any guidelines for deployment of one ambulance and a crane on highways to help accident victims;

(b) if so, the details thereof;

(c) the details of ambulances and cranes deployed during the last five years, Statewise and year-wise and the amount spent so far;

(d) whether any performance audit has been carried out by Government during the last years of the scheme; if so, the details thereof including cases of misuse, if any, and action taken thereon; and

(e) whether this scheme has been delivering intended results and if not, the plans to make it more effective?

THE MINISTER OF STATE IN THE MINISTRY OF ROAD TRANSPORT AND HIGHWAYS (DR. TUSHAR CHAUDHARY): (a) and (b) Yes, Sir. Ministry of Road Transport and Highways provides cranes and ambulances to States/UTs/NGOs under the "National Highways Accident Relief Service Scheme (NHARSS)" for relief and rescue measures in the aftermath of accidents by way of evacuating road accident victims to nearest medical aid centre and for clearing the accident site. Their deployment is done by the respective State Governments/UTs on National Highways on accident prone stretches, having a distance of 50 Kms. Ambulances are also provided by National Highways Authority of India (NHAI) at an average stretch of 50 km. on National Highways entrusted to them. NHAI also makes available two away cranes on every toll plaza. Public Private Partnership (PPP) projects under the new Model Concession Agreement have provision for medical aid posts at each toll plaza which will have round the clock ambulance services for victims of accidents, to be made operational on commencement of commercial operations.

(c) The State-wise and year-wise break up of ambulances and cranes sanctioned by Ministry of Road Transport and Highways during the last five years is given in Statement (See below). A total expenditure of Rs. 61,27,36,000/- was incurred on this account.

Services of ambulances and cranes are also made available by NHAI through various BOT/OMT concessionaires and Operation and Maintenance (O&M) contractors. Expenses on these services are borne by respective concessionaires under concession agreements and by O&M contractors under O&M contracts. No separate fund for provision of ambulances and cranes is provided/maintained by NHAI State-wise.

(d) and (e) No, Sir. Ministry of Road Transport and Highways provides ambulances and cranes to Transport and Police Departments of States/UTs based on their requirements to supplement their existing deployment.

**Statement**

*Detailed Break up of cranes and ambulances sanctioned to States/NGOs under National  
Highways Accident Relief Service Scheme*
