

Evaluation of achievements under NRHM

2276. DR. T.N. SEEMA: Will the Minister of HEALTH AND FAMILY WELFARE be pleased to state:

(a) whether Government has conducted any evaluation of the achievements made under National Rural Health Mission (NRHM) vis-a-vis the general objectives and targets for improvement in health indicators fixed by the Mission;

(b) if so, the details thereof;

(c) the names of States which performed better and the States which fared less than adequate and the details thereof; and

(d) the reasons for the non-achievement of the objectives in the backward States?

THE MINISTER OF STATE IN THE MINISTRY OF HEALTH AND FAMILY WELFARE (SHRI SUDIP BANDYOPADHYAY): (a) and (b) Yes. The concurrent evaluation of National Rural Health Mission was done by International Institute of Population Sciences (HPS), Mumbai. Progress vis-a-vis targets set for health indicators like Infant Mortality Rate (IMR), Maternal Mortality Ratio (MMR) and Total Fertility Rate (TFR) is also assessed through periodic surveys.

(c) and (d) The names of States which performed better than national average of decline in IMR, MMR & TFR and names of States which performed less than national average of decline in IMR, MMR & TFR are at Statement-I, II & III respectively.

The High Focus (i.e. backward) States like Uttar Pradesh, Bihar, Chhattisgarh and Rajasthan have shown better performance in reducing IMR, MMR and TFR is given in statement-I, II and III (See below). Orissa and Madhya Pradesh have also performed better in reducing the IMR and MMR.

Reasons for non achievement of goals and objectives by high focus states include low level of achievement at beginning, large proportions of vulnerable sections, difficult terrains lack of absorptive capacity and other determinants of health like literacy, women empowerment etc.
