Dave, former Chairman, Unit Trust of India, to examine policy questions connected with old age income security, in India and submit its recommendations to the Government. The committee submitted its final report to the Government on 11.01.2000. The report contains recommendations on the schemes and action that Government may take to ensure that every young worker builds up enough savings during his/her working life which could serve as a shield against poverty during their old age. The recommendations contained in the report have twin focus on further improving existing pension provisions and to devise a fresh pension plan for such workers who are not included in the present pension provisions but are capable of saving modest amounts and converting these savings into old age income security provision.
