

steps to increase infrastructure financing; permitting FDI in areas such as multi-brand retail, power exchanges and aviation. The Union Budget 2013-14 has outlined several initiatives to boost investment in infrastructure and industry, that *inter-alia* include encouraging Infrastructure Debt Funds, credit enhancement to infrastructure companies, raising the corpus of Rural Infrastructure Development Fund, introduction of investment allowance for new high value investments, etc. Regarding agriculture, the initiatives included starting a programme of crop diversification that would promote technological innovation and encourage farmers to choose crop alternatives, allocation for Rashtriya Krishi Vikas Yojana and National Food Security Mission, Credit Guarantee Fund to be created in the Small Farmers' Agri Business Corporation with an initial corpus of Rs. 100 crore etc. It is expected that these measures would help revive market confidence and boost growth.

The Twelfth Five Year Plan highlights various strategies and steps needed to achieve the targeted growth rates in different sectors. An important facet of the Twelfth Plan's Strategy for growth is that there is an endeavor to increase the productivity as one of the key drivers of the growth. The Twelfth Plan identifies key thrust areas for growth in agriculture sector which include viability of farm enterprise and returns to investment, availability and dissemination of appropriate technologies to ensure sustainability of natural resources, improvements in total factor productivity; Plan expenditure on agriculture and in infrastructure along with leveraging the required private investment, governance in terms of institutions that make possible better delivery of services like credit, animal health and of quality inputs like seeds, fertilisers, pesticides and farm machinery, etc. The Twelfth Five Year Plan emphasizes that given the limited capacity of the services sector to absorb most of the job seekers, the manufacturing sector will have to provide at least 100 million additional jobs by the year 2025. For this purpose a National Manufacturing Plan has been developed for translating various components of the policy into desired outcomes. In addition, other initiatives such as development of physical infrastructure, improvement in business regulatory environment, promoting the Micro, Small and Medium Enterprises (MSMEs), availability of skilled workforce are the priority areas to boost the manufacturing sector.
