

- (d) if so, the details thereof on various working groups and committees constituted at various ports in the country, Port-wise?

THE MINISTER OF STATE IN THE MINISTRY OF SHIPPING (SHRI KRISHAN PAL): (a) to (d) Yes, Sir. The Government has decided to reconstitute the Port Advisory Committees set up in the major Ports. The Port Advisory Committees were constituted under the Chairmanship of the Chairman of the each major Port with a management expert, a financial expert, a representative each from Chambers of Commerce and Industry, State Pollution Control Board or an Environmental organisation of repute, National Highways Authority of India/Container Corporation of India Ltd., two representatives from Public Private Partnership (PPP) operators in the Port and 7 representatives representing other stakeholders/public/users.

Development of Khambhat port

†619. SHRI LAL SINH VADODIA: Will the Minister of SHIPPING be pleased to state:

- (a) whether it is a fact that Khambhat (Gujarat) city was used as a port which is closed, at present;
- (b) if so, whether Government proposes to develop Khambhat as a port; and
- (c) if so, by when and if not, the reasons therefor?

THE MINISTER OF STATE IN THE MINISTRY OF SHIPPING (SHRI KRISHAN PAL): (a) to (c) Khambhat Port is a Non-Major port in the State of Gujarat. As per the Section 3 (9) of Indian Ports Act, 1908, the responsibility for development of Non-major Ports in Gujarat vests with the State Government of Gujarat.

Capacity of irrigation

†620. SHRI RAMDAS ATHAWALE: Will the Minister of WATER RESOURCES, RIVER DEVELOPMENT AND GANGA REJUVENATION be pleased to state:

- (a) the number of large and medium irrigation projects under construction in the country, especially in backward and rural areas, and their estimated cost and irrigation capacity, project-wise;
- (b) whether it is a fact that the estimated cost and the schedule of completion of most of these projects have increased; and

†Original notice of the question was received in Hindi.

(c) if so, the details of escalation in cost and extension in stipulated schedule of completion and the reasons therefor project-wise?

THE MINISTER OF STATE IN THE MINISTRY OF WATER RESOURCES, RIVER DEVELOPMENT AND GANGA REJUVENATION (SHRI SANTOSH KUMAR GANGWAR): (a) As per Report of the “Working group on Major and Medium Irrigation and Command Area Development for Twelfth Five Year Plan” constituted by Planning Commission and information available with Central Water Commission, 326 Projects were reported as ongoing including those projects which are in backward and rural areas. State-wise and Project-wise including estimated cost, start year, ultimate irrigation potential, and the likely year of completion details of these 326 projects are given in the Annexure. [See Appendix 232 Annexure No. 16]

(b) and (c) Considering normal gestation period of completion for major irrigation projects as being 10-15 years and that of medium irrigation projects as 5-8 years, the major projects started prior to the year 1997 and medium projects started prior to the year 2004 could be implicitly considered as having overrun the time of completion with consequent cost escalation. Thus, out of major/medium projects, 163 major/medium projects may be considered delayed. State-wise and Project-wise details of these 163 Projects are given in the Statement (See below).

Irrigation development being a state subject, planning, execution and operation & maintenance of irrigation projects are carried out by the State Governments from their own resources as per their own requirements and priority of works.

Completion of irrigation projects gets delayed due to various reasons such as Land acquisition, resettlement and rehabilitation of the affected population, clearance from the Ministry of Environment and Forest, litigation on the projects, geological surprises in the foundations, paucity of funds etc. Sometimes geological surprises in foundations and change in strata may lead to changes in design and scope of work. All these factors as narrated above leads to increase in cost of the project from its initial cost.

Statement

The state-wise and project-wise details of 163 projects considered delayed

*State-wise and Project-wise details of Project Reported ongoing at end of Eleventh Five Year Plan
(Delayed beyond Normal Gestaion period of Completion)*
