The total disallowed development costs as on 31st March, 2014 amounts to US \$ 2.376 billion. As a result of above

The possible alternatives for affecting the recovery of additional profit petroleum from the contractor are being worked out.

The contractor of the block has invoked arbitration on this issue.

(c) and (d) Contractor has not drilled the required number of gas producer wells in D1 and D3 fields in line with the Addendum to Initial Development Plan (AIDP) approved by the Management Committee (MC) which has resulted in shortfall in production of gas *vis-a-vis* production estimates under the approved AIDP from D1 and D3 fields of block KG-DWN-98/3.
