# Inter Ministerial Central Team has visited affected areas. The matter is under process.

**Imbalanced use of chemical fertilizers**

†1450. DR. VIJAYLAXMI SADHO: Will the Minister of AGRICULTURE AND FARMERS WELFARE be pleased to state:

(a) whether it is a fact that due to imbalanced use of chemical fertilizers, agricultural land in the country has been severely damaged;

---

†Original notice of the question was received in Hindi.

- (b) if so, Government's reaction thereto;
- (c) whether Government has identified those areas in the country where agricultural lands have been affected the most and the least; and
- (d) if so, names of those States and the details thereof?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE AND FARMERS WELFARE (SHRI MOHANBHAI KALYANJIBHAI KUNDARIYA): (a) Indian Council of Agricultural Research (ICAR) studies show that there is no harmful effect of chemical fertilizers with recommended doses and its judicious use. However, imbalanced use of chemical fertilizers coupled with low addition of organic matter over years may result in multinutrient deficiencies and decline in soil health.

(b) Government is recommending soil test based balanced and integrated nutrient management through conjunctive use of both inorganic and organic sources of plant nutrients to ensure judicious use of chemical fertilizers preventing deterioration of soil health.

Government is implementing Soil Health Card scheme that provides soil fertility status and also fertilizer recommendations to be used by farmers. Recommendation is also given for soil amendments for deficiencies found.

(c) and (d) The state-wise districts delineated deficient in different nutrients are given in Statement.

#### *Statement*

*Districts low in soil available Nitrogen(N), Phosphorus(P), Potassium(K), Sulphur(S), Zinc(Zn), Iron(Fe), Manganese(Mn) and Boron(B) in different States*
