Two-thirds of Nepal's global trade is with India and over 90% of Nepal's third country import-export transit through India. India is committed to further strengthen and expand India-Nepal cooperation through regular bilateral exchanges and development assistance. Our bilateral mechanisms covering the areas of defence and security, trade, power, water resources and border management are meeting regularly besides the India-Nepal Joint Commission which comprehensively reviews the entire gamut of bilateral relations. India continues to extend all assistance in accordance with the aspirations of the people of Nepal, for peace, stability and socio-economic development of the country.
