- MGNREGA prevented 14 million persons from falling into poverty (those non-poor in 2004-05 who would have become poor by 2011-12 without MGNREGA employment).
- In spite of a high initial poverty rate (75.8% in 2004-05), poverty among adivasis was reduced by 27.6% and for dalits by 37.6%.
- MGNREGA is more effective in poverty reduction in less developed areas (34%) than in more developed areas (27%).
- Low-participating areas experienced much greater poverty reduction (72%) than areas with a high participation rate (27%).
