Power plants with 6 hours battery bank	₹ 100/Wp:	₹ 30/Wp
Solar Lamp	₹ 250/Wp:	₹ 212.50/Wp

Presently, under Ministry of New and Renewable Energy's Scheme Guidelines, there is no provision for subsidy for insurance of solar energy products.

(c) As per the Reserve Bank of India's circular no. RBI/2017-18/175DCBR. BPD(PCB).Cir.No 07/09.09.002 /2017-18 dated 10.05.2018, the priority sector lending for renewable energy includes bank loans up to a limit of ₹ 15 crore to borrowers for purposes like solar based power generators, biomass based power generators, wind mills, micro-hydel plants and for non-conventional energy based public utilities viz. street lighting systems, and remote village electrification, under priority sector lending. For individual households, the loan limit is ₹ 10 lakh per borrower.

Tenders for solar energy

2216. SHRI KAPIL SIBAL: Will the Minister of NEW AND RENEWABLE ENERGY be pleased to state:

(a) date-wise details of the tenders floated by Government for solar energy since 2014 till date along with the responses received;

(b) whether Government has not been able to fetch response to solar tenders, if so, the reasons therefor;

(c) whether Government has redrafted the solar tenders, if so, the details thereof, if not, the reasons therefor; and

(d) whether it is a fact that Government had promised to expedite solar energy in India, if not, the reasons therefor?

THE MINISTER OF STATE OF THE MINISTRY OF NEW AND RENEWABLE ENERGY (SHRI RAJ KUMAR SINGH): (a) Date-wise details of tenders issued by Solar Energy Corporation of India Ltd. (SECI) and National Thermal Power Corporation (NTPC) alongwith the capacity of bids received are given in Statement (*See* below).

(b) No Sir. The response of the tenders for setting up of solar power projects has been encouraging. So far, SECI has issued bids for setting up of 23,540 MW capacity from Solar energy, and 1200 MW capacity from solar-wind hybrid projects. The participation of companies was lower in some recent tenders of new technologies issued by SECI viz. floating solar, solar projects linked with manufacturing facilities

and wind-solar hybrid projects, due to their newness and further due to prevailing market conditions such as rupee depreciation, increase in cost of borrowing, increase in input costs, order book positions of prospective developers etc.

(c) The Government have held various rounds of consultations with project developers, financing institutions etc. and the feedback received has been suitably incorporated into the tender documents to the possible extent.

(d) Yes Sir. The Government had, in 2015, set a target for installation of grid connected solar energy capacity of 100 GW in the country by 2022 in order to expedite deployment of solar energy in India.

Share of solar power in power basket

2217. SHRI HARNATH SINGH YADAV: Will the Minister of NEW AND RENEWABLE ENERGY be pleased to state:

(a) the contribution of solar energy to the total installed capacity of power in the country;

(b) the rate of growth of solar energy over the last three years; and

(c) the measures being taken by Government to accelerate deployment of solar energy?

THE MINISTER OF STATE OF THE MINISTRY OF NEW AND RENEWABLE ENERGY (SHRI RAJ KUMAR SINGH): (a) A grid connected capacity of 24,567.39 MW of solar energy has been installed out of total installed renewable energy capacity of 73,969.70 MW in the country as on 30.11.2018.

(b) The Compounded Annual Growth Rate of solar energy has been 78.9% over the last three years. The details of grid connected solar energy capacity installed are as under:—

Year	Cumulative Capacity installed (in MW) at the end of year
2015-16	6,763
2016-17	12,289
2017-18	21,652
