

So far, Microwave backhaul carriers have been allotted only through administrative process.

(c) to (e) Not applicable in view of (a) to (b) above.

Note: MWA stands for Microwave Access and TSPs stands for Telecom Service Providers.

Non-disbursement of MSP to farmers

*63. SHRI RIPUN BORA: Will the Minister of AGRICULTURE AND FARMERS WELFARE be pleased to state:

(a) whether it is a fact that the farmers in the country are still unable to repay loans due to non-receiving of MSP in the country;

(b) if so, the details of Central support of MSP to farmers for the period 2016-17, 2017-18 and April to December, 2018, crop-wise;

(c) the disbursement of MSPs to farmers during the said periods; and

(d) the action taken by Government to safeguard the interests of the farmers?

THE MINISTER OF AGRICULTURE AND FARMERS WELFARE (SHRI RADHA MOHAN SINGH): (a) Sir, there is no such information.

(b) and (c) Do not arise. However, the crop-wise details of procurement made from farmers at MSP for the period 2016-17, 2017-18 and April to December, 2018 are given in Statement-I, II, III and IV respectively (*See below*). For these procurement, farmers have been granted MSP for their produce.

(d) In order to ensure Minimum Support Price (MSP) to farmers an umbrella scheme of “Pradhan Mantri Annadata Aay SanraksHan Abhiyan” (PM-AASHA), comprising Price Support Scheme (PSS), Price Deficiency Payment Scheme (PDPS), and pilot of Private Procurement and Stockist Scheme (PPSS) and existing schemes of Department of Food and Public Distribution and Ministry of Textiles.

Further, for transparent price discovery to get remunerative prices for the farmers for their produce through competitive online bidding system, Government is implementing National Agriculture Market (e-NAM) scheme. In order to optimize the use of scarce resources and mitigate the uncertainty in price and marketing, Government has formulated and released a progressive and facilitative Model Act “The–State/UT Agricultural Produce and Livestock Contract Farming and Services (Promotion and Facilitation) Act, 2018” in May, 2018 for its adoption by the States/Union Territories

(UTs). The aforesaid Model Contract Farming Act covers the entire value and supply chain from pre-production to post harvest marketing including services contract for the agricultural produce and livestock. Further, In order to provide better marketing facilities to the farmers, the Government has released a new model “The Agricultural Produce and Livestock Marketing (Promotion and Facilitation) Act, 2017” in April, 2017 for its adoption by States/UTs. The model act provides for alternative marketing channels such as setting up of private markets, direct marketing, farmer-consumer markets, special commodity markets, to facilitate farmers in marketing their produce at competitive and remunerative prices. To develop Agricultural Marketing Infrastructure including storage infrastructure, Government is implementing capital investment subsidy sub-scheme “Agricultural Marketing Infrastructure (AMI)” of Integrated Scheme for Agricultural Marketing (ISAM) with two distinct marketing infrastructure components either (i) Storage Infrastructure in rural area, and (ii) Other than storage infrastructure.
