(c) and (d) The tea Industry is a labour intensive sector. As per baseline survey conducted by the Tea Board, there are approximately 1.13 million workers engaged in tea plantation. Under the TDPS, vocational training programmes are organized for skill development and self-employment of dependents of workers. Short term training for acquiring skills like plumbing, masonry, electrical /TV repair, carpentry, construction of sanitary units, mobile banking, computer literacy etc. are also conducted

(e) In order to increase the production of tea in the country, the Tea Development and Promotion Scheme is implemented by the Tea Board. The main activities of the Scheme, *inter alia*, includes replantation, rejuvenation, field mechanization, factory modernization, quality certification and workers welfare.

SHRI JAIRAM RAMESH: Sir, in the last 20 years, small tea growers have grown in importance, particularly, in Assam, and North Bengal, which account for about seventy per cent of India's tea production. Sir, from the reply given by the Minister, I was a little intrigue that there are special packages for tea growers everywhere except the North Bengal, the Dooars area. The Dooars contribute about 75 per cent of India's tea production. My question to the hon. Minister is: why is there no special package for small tea growers in North Bengal? Sir, Assam accounts for almost 50 per cent of tea production and the total allocation for the North East is hardly four crore of rupees. As a proportion of the total Budget for the Tea Board, it is a small proportion.

SHRI SOM PARKASH: Sir, special assistance has been given to West Bengal. It is ₹ 5.78 crore and it is included in the Special Assistance Programme.

SHRI RIPUN BORA: Sir, this question is regarding small tea growers. Sir, in Assam, there are thousands and thousands of small tea growers. As per the answer given by the Minister, the Government has given special package for the entire North Eastern Region. There are seven States. For these seven States, in 2017-18, the assistance was ₹ 113 lakhs, whereas, in the years 2018-19, only ₹ 18.75 lakhs have been given. Sir, this amount is very, very insignificant. My question to the hon. Minister is: will the hon. Minister increase the allocation to benefit thousands and thousands of small tea growers? It is totally insignificant, Sir.

SHRI SOM PARKASH: Sir, the assistance given to tea growers in Assam is ₹8,85,00,000 and the assistance given to other States is separate from this. The total assistance given is ₹20,45,00,000.

SHRI JAIRAM RAMESH: Sir, encouraging the MoS is very good, but occasionally the Cabinet Minister could also answer. ...*(Interruptions)*...
