Need for setting up of a Bench of the Supreme Court at Bengaluru

SHRI K.C. RAMAMURTHY (Karnataka): Mr. Chairman, Sir, thank you very much for permitting me to raise this very important issue of national importance. Sir, successive Governments have been trying to bring down the load on the Supreme Court and other courts. There are views, suggestions and recommendations that the Supreme Court at Delhi should concentrate on constitutional matters while four appellate benches one each in the North, the South, the East and the West should focus on appeals emanating from the High Courts. I feel the time has come now that the Supreme Court and the Government of India take a positive view on this and see that the pressure on the highest court is reduced. We have seen that the benches established by various High Courts have been functioning very effectively and have been highly beneficial to the litigants. It is not just about easing the pressure on the courts. The litigants are not able to come here and they are relinquishing the idea of going to the Supreme Court due to distance and cost. It is high time we gave a

serious thought to it. When it comes to establishing Supreme Court Benches in the four regions, I feel as far as south is concerned, Bengaluru is the best place for it considering its climatic conditions, connectivity, infrastructure, readily available judicial accommodations and other things. I request the Government of India and our dynamic Law Minister to take up this issue with the Supreme Court of India for setting up a Supreme Court Bench at Bengaluru where all the facilities are available. Thank you very much, Sir.
