

**GOVERNMENT OF INDIA
MINISTRY OF HEALTH AND FAMILY WELFARE
DEPARTMENT OF HEALTH AND FAMILY WELFARE**

**RAJYA SABHA
UNSTARRED QUESTION NO. 1035
TO BE ANSWERED ON THE 07TH DECEMBER, 2021**

VACCINATION PROGRAMME FOR CHILDREN AND UNDER-18 POPULATION

1035. SHRI SUJEET KUMAR:

Will the Minister of **HEALTH AND FAMILY WELFARE** be pleased to state:

- (a) the details of the progress in vaccination programme for children and under-18 population, especially considering that schools are being re-opened across the country;
- (b) whether Government will be providing vaccination to children for free; and
- (c) the details of the certification process that Government will follow thereto and details of the vaccines that Government is in the process of approving and/or testing for children?

ANSWER

**THE MINISTER OF STATE IN THE MINISTRY OF HEALTH AND FAMILY WELFARE
(DR. BHARATI PRAVIN PAWAR)**

(a) to (c) National Expert Group on vaccine administration for Covid (NEGVAC) and National Technical Advisory Group on Immunization (NTAGI) are deliberating and considering scientific evidences related to vaccination of beneficiaries aged less than 18 years.

Government of India has been supplying Covid-19 vaccines free of cost to the States/UTs for administration to prioritized beneficiaries as recommended by NEGVAC.

ZyCoV-D vaccine manufactured by M/s Cadila Healthcare has received the approval for Restricted Use in Emergency Setting by the National Regulator i.e. Drug Controller General of India (DCGI) for the age group of 12 years and above based on the interim clinical data of Phase II & Phase III clinical trial conducted in the country.

Following COVID-19 vaccines are under clinical trials in the country for age-group of less than 18 years:

- i. M/s Bharat Biotech is conducting Phase II/III clinical trial of COVAXIN on Healthy Volunteers aged 2 to 18 years & firm has submitted interim safety & immunogenicity data to the National Regulator.
- ii. M/s Serum institute of India is conducting Phase II/III clinical trial of Nanoparticle Vaccine (Liquid) (COVOVAX) in 920 subjects of >2 to 17 years age group.
- iii. M/s Biological E Ltd., is conducting Phase II/III clinical trial of RBD of SARS-CoV-2 gene in 624 subjects of ≥ 5 to <18 years age group.
- iv. M/s Johnson & Johnson Pvt. Ltd., is conducting Phase II/III clinical trial of Ad.26COV.2S vaccine in age group of 12-17 years (Global Clinical trial wherein India is one of the clinical trial site).

The approval of aforementioned COVID-19 vaccines is dependent on the successful completion of clinical trials and submission of requisite data to the National Regulator i.e. Drug Controller General of India as per the requirements of New Drugs and Clinical Trials Rules, 2019 under Drugs and Cosmetics Act, 1940.
