UNSTARRED QUESTION NO.2748
TO BE ANSWERED ON 28.03.2022**

Coal Mining Capacity

2748. SHRI BINOY VISWAM:

Will the Minister of *COAL* be pleased to state:

- (a) coal mining capacity allocated/auctioned to various players since January 2016 and details of all the coal mine allocations as per the envisaged end-use like power, steel, etc;
- (b) the annual capacity of these coal mines and whether this is as per the expected timelines and, if not, the major reasons for delays;
- (c) whether Government is planning to auction/allocate more coal blocks till 2030, if so, the details of overall auction/allocation schedule and the envisaged timeline of its operationalisation; and
- (d) the progress made by CIL to achieve its 1 billion tonnes production target?

ANSWER

**MINISTER OF COAL, MINES & PARLIAMENTARY AFFAIRS
(SHRI PRALHAD JOSHI)**

(a) & (b) Details of Coal mines auctioned/allocated to various players since January 2016 is enclosed as Annexure. Out of the said 64 coal blocks, 19 coal blocks should have started coal production till February, 2022. However, only 7 coal mines are operational. Major reasons identified for delay in operationalisation of coal mines are as under :-

- Delay in transfer of clearances existing with Prior allottees like ECs, FCs and Mining leases
- Delay in obtaining ECs/FCs
- Delay in identification of CA land and non-availability of CA land
- Administrative delays in mining lease execution.
- Litigation related to land and lack of clarity in land transfer process.
- Processes are not standard across states and that added to delays.

(c) Auction of coal blocks is a continuous process. Companies may apply as and when Notice Inviting Tender is published .

(d) In 2019-20, 1 BT Plan document was approved indicating various resource requirement for achieving the 1 BT coal production. CIL has envisaged the resource requirement like EC, FC, acquisition of tenancy and government land, handover of forest land post Stage-II FC, evacuation infrastructure like mechanised loading through CHP/SILO, Rail Projects etc. to achieve the ambitious target of 1 BT by 2024-25 on best effort basis. The progress made so far by CIL since April, 2020 to February, 2022 to achieve 1 billion tonne coal production is as follows:-

- (i) 49 Projects Reports including Greenfield and expansion projects have been approved by CIL & its subsidiaries to create additional capacity of coal production.
- (ii) Environmental Clearance granted for 50 proposals with an incremental capacity of 62.41 Mty.
- (iii) Stage-II Forest Clearance granted for 13 proposals involving 2468.24 Ha of forest land.
- (iv) 5459.86 Ha of land have been possessed.
- (v) 6 First Mile Connectivity Projects of CHP/ SILO have been commissioned with aggregate capacity of 82 Mty.
