**ANSWER**

THE MINISTER OF STATE FOR FINANCE  
(SHRI PANKAJ CHAUDHARY)

(a) to (c): Indian rupee was one of the better performing currency amongst other Asian currencies like South Korean Won, Philippines Peso, Thai Baht and Japanese Yen during the last few quarters. Indian rupee performance (Q-o-Q) in 2021 is given in Table 1

**Table 1: Performance of Indian rupee in 2021 (Q-o-Q)**

Sl. No.	Quarter	Appreciation (+)/Depreciation (-)
1	January-March 2021	(-) 0.05%
2	April-June 2021	(-) 1.64%
3	July-September 2021	(+) 0.13%
4	October-December 2021	(-) 0.13%

(d) The exchange rate of the rupee is determined largely by the market forces of demand and supply. Reserve Bank of India intervenes only to curb excessive volatility in the foreign exchange market and to maintain orderly conditions therein without targeting any specific level of the exchange rate.
