ANSWER

MINISTER OF AGRICULTURE AND FARMERS WELFARE

(SHRI NARENDRA SINGH TOMAR)

(a): The State-wise distribution of overall and per capita agricultural loan during the last three years is given at Annexure-I.

(b): The per capita consumption of electricity in various States of the country during the last three years is attached at Annexure-II. The per capita consumption of fertilizer and agricultural equipment by farmers is not maintained. However, State wise total consumption of major fertilizers namely Urea, DAP, MOP, Complexes and SSP for last three years is given at Annexure- III.

(c): The per capita average agricultural production and per capita farmer income are not maintained. However, the Government of India conducted a Survey on 'Agricultural Households and Land and Livestock Holdings of Households in Rural India' in NSSO report no. 587. As per the above survey report, the average monthly income per agricultural household during July 2018- June 2019 is Rs. 10,218.
