ANSWER

THE MINISTER OF STATE FOR FINANCE
(SHRI PANKAJ CHAUDHARY)

- (a) The appreciation/depreciation of Indian Rupee against U.S. Dollar during the last three years is given below:

Table 1: Appreciation/Depreciation of Indian Rupee against US Dollar

Financial Year	Appreciation (+) / Depreciation (-)
2019-20	(-) 8.46%
2020-21	(+) 3.32%
2021-22	(-) 3.53%
FY 23 till July 11, 2022	(-) 4.60%

- (b) & (c) Nominal exchange rate is only one of the factors that impact an economy. The depreciation of a currency is likely to enhance the export competitiveness which in turn impacts the economy positively. On the other hand, depreciation may raise the prices of imported goods. However, the overall impact of exchange rate depreciation on domestic prices depends on the extent of pass-through of international commodity prices to the domestic market.
