**ANSWER**

THE MINISTER OF STATE FOR JAL SHAKTI  
(SHRI PRAHLAD SINGH PATEL)

(a) to (d) A statement of reply is laid on the table of the House.

**Statement referred to in the reply to Rajya Sabha Starred Question No. 228 due for reply on 08.08.2022**

(a) to (d) Drinking water being a State subject, it is the States, who plan, design, approve and implement drinking water supply schemes. Government of India supplements the efforts of the States by providing technical and financial assistance. As such all States, including Punjab, have been requested to provide potable tap water supply in every rural household by 2024.

Since JJM aims at universal coverage of rural households all villages are included under JJM. Since the launch of Jal Jeevan Mission in August 2019, about 17.59 lakh (51.14%) rural households in Punjab have been provided tap water connections. Thus, as on 03.08.2022, provision of tap water supply has been made to 34.38 lakh (99.93%) households out of total 34.40 lakh rural households in Punjab.

Grey water treatment and its reuse is an important component while planning for drinking water schemes under JJM. Provision has been made for the preparation of Village Action Plan (VAP) by village community, which *inter alia* includes creation of grey water management infrastructure by converging schemes such as SBM (G), MGNREGS, 15<sup>th</sup> Finance Commission grants to rural local bodies/ PRIs, MP & MLA Local Area Development Funds, District Mineral Development Fund, CSR fund, etc. As such the details of financial outlay made by the States, including progress of grey water management are not maintained at the Government of India level.

The details of budgetary allocation, fund drawn & reported utilization by States/ UTs, including Punjab, under JJM for 2019-20, 2020-21, 2021-22 and 2022-23 are **Annexed**. District-wise details of funds allocated and utilization are not maintained at the Government of India level.
