

[8th December, 2000]

RAJYA SABHA

4. Tightening of norms and actuals that go into the computation of retention price in successive pricing periods under the Retention Price-cum Subsidy Scheme.
5. Encouragements to units for implementation of energy saving measures such as purge gas recovery (PGR) unit etc. and promoting technological improvement to enhance energy efficiency.
6. Providing duty concessions for techno-economically cleared schemes for modernization of existing units.

Production of fertilizers by private sector

†2073. SHRI GOPALSINH G. SOLANKI: Will the Minister of CHEMICALS AND FERTILIZERS be pleased to state:

(a) the target set by the private sector for production of urea and other fertilizers in the current year;

(b) the total actual production made by each company in first nine months;

(c) whether private sector is capable of fulfilling the requirement of urea; and

(d) the year-wise average production made by each company?

THE MINISTER OF STATE IN THE MINISTRY OF CHEMICALS AND FERTILIZERS (SHRI SATYA BRATA MOOKHERJEE): (a) For the current financial year (2000-01) the production target of private sector are 81.18 lakh tonnes of urea, 51.47 lakh tonnes of nitrogen and 25.79 lakh tonnes of phosphate.

(b) The units-wise details of actual production during the first nine month of the current calender year are given in Statement-I (*See* below).

(c) Private Sector manufacturers met 44.1% of urea requirement during 1999-2000.

(d) Unit-wise average production of urea during the last 3 years is given in Statement-II (*See* below).

†Original notice of the Question was received in Hindi.

Statement-I

Unit-wise actual production of urea, nitrogen and phosphate by private sector during January-Septemer, 2000.
