(a) Pradhan Mantri Krishi Sinchayee Yojana (PMKSY) was launched during the year 2015-16 to enhance physical access of water on farm and expand cultivable area under assured irrigation, improve on-farm water use efficiency, introduce sustainable water conservation practices, etc.

PMKSY is an umbrella scheme, consisting of two major components being implemented by Ministry of Jal Shakti, namely, Accelerated Irrigation Benefit Programme (AIBP), and Har Khet Ko Pani (HKKP). HKKP, in turn, consists of four sub-components: (i) Command Area Development & Water Management (CAD&WM); (ii) Surface Minor Irrigation (SMI); (iii) Repair, Renovation and Restoration (RRR) of Water Bodies; and (iv) Ground Water (GW) Development (approval only till 2021-2022, and thereafter only for ongoing works). Further, in 2016, CAD&WM sub-component of HKKP was taken up for pari passu implementation with AIBP.

In addition, PMKSY also consists of Watershed Development Component (WDC) which is implemented by Department of Land Resources, Ministry of Rural Development. Further, Per Drop More Crop (PDMC) component was earlier implemented by Department of Agriculture and Farmers Welfare (DoA&FW) as a component of PMKSY during 2016-21, and is now implemented separately by DoA&FW.

After approval of continuation of PMKSY for the period of 2021-22 to 2025-26, 9 projects in five districts of Haryana covering an area of 31,221 hectares have been sanctioned under watershed development component of PMKSY. District-wise details in this regard are given at **Annexure-II**.
