

GOVERNMENT OF INDIA
MINISTRY OF COMMERCE & INDUSTRY
(DEPARTMENT OF COMMERCE)

RAJYA SABHA
UNSTARRED QUESTION NO. 1330

ANSWERED ON 06/12/2024

NATIONAL IMPORT-EXPORT RECORD FOR YEARLY ANALYSIS OF TRADE PORTAL

1330. DR. PARMAR JASHVANTSINH SALAMSINH:

Will the Minister of COMMERCE AND INDUSTRY be pleased to state:

- (a) the salient features of National Import-Export Record for Yearly Trade Analysis (NIRYAT) portal;
- (b) whether the portal gives commodity-wise export data to facilitate the relevant stakeholders with accurate information; and
- (c) if so, the details thereof?

ANSWER

THE MINISTER OF COMMERCE AND INDUSTRY
(SHRI PIYUSH GOYAL)

(a) to (c) Department of Commerce has developed a portal-NIRYAT (National Import-Export Record for Yearly Analysis of Trade) launched by Hon'ble Prime Minister on 23rd June, 2022 to supplement the offline monitoring of export performance. It is a real time system for monitoring of the designated export target for 200 Countries / territories by 31 commodity groups, via a digitized data-driven framework for facilitating timely policy making / interventions in international trade. The portal is accessible to Government Stakeholders (including Embassies / HCs / Missions) and Export Promotion Councils (EPCs) / Commodity Boards / Authorities, etc through individual login and password, for regular monitoring of the export performance of their respective jurisdictions and to take necessary action, wherever required.

The features of the NIRYAT Portal are as follows:

- One View platform - to track the performance of each commodity and country's trade values against defined target
- Dashboard with interactive visualizations so that users can easily slice and dice the data
- For ease-of-use, data is explored at commodity, country, or combination of both
- World Map view, Commodity View, Table view for easy analysis
- Automated Insights
- Intuitive Application with colour coding to raise red flags, identify bottlenecks and push remedial policy actions
- Export analysis of commodities from different States of India
- Role based user access to direct them to relevant information
- Insights as notification on desktop via browser widget (available in chrome web-browser at the moment)
