**ANSWER**

**THE MINISTER OF STATE FOR NEW & RENEWABLE ENERGY AND POWER**

**(SHRI SHRIPAD YESSO NAIK)**

(a) PM-KUSUM Scheme was launched by the Government in March, 2019 to provide financial support to the farmers for installation of standalone solar pumps and solarization of existing grid-connected agriculture pumps, and to provide the farmers an opportunity to become solar entrepreneurs by installing solar power plants on their barren/ fallow/ agriculture land.

(b) The Scheme consists of three components:

- Component-A: Setting up of 10,000 MW of Decentralized Ground/ Stilt Mounted Grid Connected Solar or other Renewable Energy based Power Plants by the farmers on their land;
- Component-B: Installation of 14 lakh standalone Solar Powered Agriculture Pumps.
- Component-C: Solarisation of 35 Lakh Grid-connected Agriculture Pumps.

The scheme is being implemented throughout the country, including State of Odisha.

(c) As per the information received by the State Implementing Agency, only 64 PSS are identified by the state for solarization of agriculture feeders.

(d) PM-KUSUM is a demand driven scheme. The funds under the scheme are released based on the progress of installation reported by the State Implementing Agencies (SIA) and as per provisions of the scheme guidelines.

State/UT wise allocations and installations achieved so far, including State of Odisha, is furnished at **Annexure-I**.
