- (a) the key features of the U-WIN Portal that has been developed for total digitisation of vaccination services for pregnant women and children under the Universal Immunisation Programme; and
- (b) the role of the app in creating awareness and facilitating access to vaccination for citizens?

**ANSWER
THE MINISTER OF STATE IN THE MINISTRY OF HEALTH AND FAMILY
WELFARE
(SMT. ANUPRIYA PATEL)**

(a) U-WIN is a digital platform for digitalization of all vaccination services provided under the Universal Immunization Programme (UIP) to pregnant women and children (from birth to 16 years). It's key features include 'Anytime Access' and 'Anywhere' vaccination services, generation of Ayushman Bharat Health Account (ABHA) and Child ABHA, self registration module, automated SMS alerts, QR-based e-Vaccination Certificate and offline mode for data entry by vaccinators.

(b) U-WIN digital platform has a mobile application for both citizens and vaccinators for ease of use and accessibility. U-WIN website guides both citizens and front line workers regarding key features and utilization of U-WIN such as registration, appointment booking and national immunization schedule through Frequently Asked Questions (FAQs) which are available in 11 Indian languages.
