

GOVERNMENT OF INDIA  
MINISTRY OF EDUCATION  
DEPARTMENT OF HIGHER EDUCATION

**RAJYA SABHA**  
**UNSTARRED QUESTION NO.2126**  
ANSWERED ON 19/03/2025

**Suicide of students**

2126 Shri C. Ve. Shanmugam:

Will the Minister of Education be pleased to state:

- (a) whether it is a fact that many students are committing suicide in Kota;
- (b) if so, the details thereof, during the last three years, year-wise;
- (c) whether Government has conducted any study to find out the actual cause of such suicides;
- (d) if so, the details thereof and, the reasons therefor; and
- (e) steps taken by Government to prevent suicides and to sensitise students?

**ANSWER**

MINISTER OF STATE IN THE MINISTRY OF EDUCATION

(Dr. SUKANTA MAJUMDAR)

(a) to (e): National Crime Record Bureau (NCRB) collects data on suicides from police recorded suicide cases. Comprehensive analysis of the data related to the accidental deaths and suicides in the country is published in the yearly Accidental Death & Suicide in India (ADSI) reports by National Crime Record Bureau (NCRB). Year wise and State wise details of student suicides are available in the ADSI reports which are accessible at <https://ncrb.gov.in/accidental-deaths-suicides-in-india-year-wise.html>. As per these Reports, there are various causes of suicides like professional/career problems, sense of isolation, abuse, violence, family problems, mental disorders, addiction to alcohol, financial loss, chronic pain etc.

To address the issue of suicide, the government is taking multi-pronged measures and provides psychological support to students, teachers and families for mental and emotional well-being to avoid incidences of suicide. An initiative of Ministry of Education, MANODARPAN, covers a wide range of activities to provide psychological support to students, teachers and families for mental and emotional well-being. A “National Tele Mental Health Programme” has been launched in 2022, to improve access to quality mental health counselling and care services in the country. As on 17.03.2025, 36 States/ UTs have set up 53 Tele Mental Health Assistance and Networking Across States (MANAS) Cells. More than 19,58,109 calls have been handled on the helpline number.

UGC issued advisory to HEIs on 06.01.2023 regarding the National Suicide Prevention Strategy framed by the Ministry of Health and Family Welfare. UGC has also issued Guidelines for Promotion of Physical Fitness, Sports, Student’s Health, Welfare, Psychological and Emotional Well- being at HEIs on 13.04.2023, which provides for promoting physical

fitness and sports activities for students; creating safeguards against academic pressure, peer pressure, behavioural issues, stress, career concerns, depression and other issues on the mental health of students; to teach positive thinking & emotions in the student community; and to promote a positive and supportive network for students.

The Ministry on 10.07.2023 has also circulated a broad framework for emotional and mental well-being of students in Higher Education Institutes (HEIs) with request to take proactive measures to incorporate the same in the institutional functioning and instil a feeling of confidence in the student community. Accordingly, IIT Madras, IIT Delhi, IIT Guwahati, IIT Gandhinagar and IIT Roorkee have conducted workshops on Mental Wellness & Stress Management, involving multiple educational Institutions and experts in the field of mental health, to develop a comprehensive approach to suicide prevention and mental health promotion.

In alignment with National Education Policy 2020's to ensure that the learning environments are engaging and supportive, the Department of Higher Education initiated the Integrated approach for Promoting Positive Mental Health, Resilience, and Wellbeing under the Malaviya Mission Teacher Training Programme. It comprises online and in-person sessions, visits to institutions with innovative mental health practices, and an Annual National Wellbeing Conclave. The goal is to empower faculty to address student mental health concerns for early intervention. So far, 1,397 faculty from over 160 centrally funded HEIs have participated in 20 online sessions. Visits to institutions like MNIT and AMU showcased effective mental health initiatives. In November 2024, the National Wellbeing Conclave, hosted with IIT Hyderabad, brought together 350 stakeholders from 100 HEIs, with more than 50 HEIs showcasing emerging practices.

Keeping in view the growth in number of unregulated private coaching centers in the country in the absence of any laid down policy or regulation; instances of such centers charging exorbitant fees from students; undue stress on students resulting in students committing suicides etc.; Ministry of Education has circulated a Guidelines for Regulation of Coaching Centers to States/UTs on 16.01.2024 for consideration by way of appropriate legal framework. This has been followed up with another letter to the States/ UTs on 16.07.2024. The Guidelines encompass several key aspects, including laying emphasis on significance of mental well-being, advocating for the prioritization of counsellors and psychologists' support within coaching centres; no batch segregation; maintenance of records etc.

Education being in the concurrent list, Centre and States are equally responsible to address this issue.
